We've added a new feature to the Commercial Level of our WeatherBrief®NET Personal Weather Service

Now when you subscribe to WeatherBank's WeatherBrief®NET Service at the Commercial Level (\$39.95 per month), your unique zip code will be automatically added to our Meteorological database.

As our Meteorologists monitor conditions across North America on a 24/7 basis, they will notify you via E-mail when weather events impact your location.

This added feature will be provided at no additional cost to you. Just make sure to include your E-mail when you subscribe online to this Service.
